

GIPS SOP: Surveys

Edited 01/15/2021

1. Any GIPS member in good standing can submit a request to disseminate a survey by contacting gipsexec@gmail.com.
2. Results of surveys sent out to members through an email blast should not be regarded as representative of GI pathologists, nor should it be regarded as authoritative. For this reason, GIPS (or any reference to a GI pathology society) should not be mentioned in any publication that may come from a survey.
3. The member requesting a survey to be sent to GIPS members must fill out the application form below.
4. The application along with the survey will be reviewed by three members of the Executive Committee: President, President-Elect, and Vice President. This group will decide whether the survey is suitable to be sent to GIPS members. The criteria for review include but are not limited to:
 - a. The survey should not be sponsored by a commercial entity
 - b. The survey should cover topics relevant to GI pathologists
 - c. Consideration will be given to whether or not a survey addressing the same topic has been distributed within the last year
5. If approved, the survey will be sent to GIPS members with the information provided in the application, as well as the following GIPS disclaimer: "This survey is being sent at the request of a GIPS member, but is not sponsored or endorsed by GIPS."
6. Results from the survey should be reported to the GIPS membership by contacting gipsexec@gmail.com in a timely fashion.
